Migration Toolkit 2.1.7 Release Notes

1. Introduction

The document communicates any major new features and changes in this release for the Migration Toolkit v2.1.7. It also documents known issues and workarounds.

2. About This Release

The release of Migration Toolkit v2.1.7 was developed to deliver bug fixes to the previous version.

3. Upgrades

Upgrading to MTK 2.1.7 is a very simple process from previous versions. Documentation is available online or contact support@gwava.com

4. New Features

General Note

All new features related to this version of the Migration Toolkit will be listed here. Please refer to the online documentation for further clarification http://support.gwava.com/documentation/Migration/index.html or contact support@gwava.com

5. Bug fixes and Enhancements

General Note

All bug fixes and enhancements related to this version of the Migration Toolkit will be listed here. Please refer to the online documentation for further clarification or contact support@gwava.com

5.1 Processing items in the SentItems folder produced error

While migrating SentItems, some customers may encounter an error "Can't send command to SMTP Host." This has been fixed in MTK 2.1.7

5.2 Unable to accept meetings for Conference Rooms

Room resource in Exchange/Office 365 was unable to accept migrated meeting requests. Bug fixed.

5.3 Unaccepted Recurring appointments not migrated

While migrating appointments, some customers may find that unaccepted meetings were missing in their Calendar after migration. This has been fixed in MTK 2.1.7

5.4 Temporary files are not deleted

Temporary files were not being deleted during the migration of GroupWise Archives to PST which could cause the hard drive to become full. This has been fixed in the Archive to PST migrator for 2.1.7

5.5 Supported Exchange Systems

There will no longer be support for Exchange 2010 in MTK 2.1.7

5.6 Supported Operating Systems

There will no longer be support for running the MTK on server based operating systems in MTK 2.1.7

5.7 Users able to see BCC uses in Exchange after migration

When email is migrated from GroupWise to Exchange, some users could see if someone was on the BCC list. This has been fixed in MTK 2.1.7

5.8 Distribution List failed on OU for Office 365

When migrating DL's to O365, some customers could receive a 'Cannot Convert Value' error. This has been fixed in MTK 2.1.7

6. Known Issues

General Note

Known issues related to this version of the Migration Toolkit will be listed here. Please note that known issues does not necessarily mean that there is a bug or a problem. These known issues may be caused by an external system. e.g. Exchange or GroupWise. Please refer to the online documentation for further clarification or contact support@gwava.com
